FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.401(c)(5)(A), effective August 1, 1997, 22 TexReg 6264, requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate.

3. 28 Texas Administrative Code §134.1, effective May 2, 2006, 31 TexReg 3561, requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
4. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
5. This request for medical fee dispute resolution was received by the Division on October 30, 2007.
6. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - Z711-The charge for this procedure exceeds the customary charges by other providers for this service.
 - W10-No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement methodology.

Findings

1. This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of former 28 Texas Administrative Code §134.401(c)(5)(A), which requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate. Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 893.1. The Division therefore determines that this inpatient admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
2. The requestor asks for reimbursement under the stop loss provision of the Division's *Acute Care Inpatient Hospital Fee Guideline* found in Division rule at 28 TAC §134.401(c)(6). The requestor asserts in the position statement that "Using the Stop Loss Method, the total amount Vista Hospital Of Dallas should have been reimbursed for the services it provided was **\$31,829.25**. The Carrier made a partial payment of **\$2,510.51**. Therefore, the Carrier is required to reimburse the remainder of the Workers' Compensation reimbursement amount of **\$29,318.74**, plus any and all interest applicable." Division rule at 28 TAC §134.401(c)(6), effective August 1, 1997, 22 TexReg 6264, states, in part, that "The diagnosis codes specified in paragraph (5) of this subsection are exempt from the stop-loss methodology and the entire admission shall be reimbursed at a fair and reasonable rate." As stated above, the Division has found that the primary diagnosis is a code specified in Division rule at 28 TAC §134.401(c)(5); therefore, the disputed services are exempt from the stop-loss methodology and the entire admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 TAC §134.1.
3. 28 Texas Administrative Code §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(iv).
4. 28 Texas Administrative Code §133.307(c)(2)(G), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
 - The requestor's position statement asserts that "Using the Stop Loss Method, the total amount Vista Hospital Of Dallas should have been reimbursed for the services it provided was **\$31,829.25**. The Carrier made a partial payment of **\$2,510.51**. Therefore, the Carrier is required to reimburse the remainder of the Workers' Compensation reimbursement amount of **\$29,318.74**, plus any and all interest applicable."
 - The requestor seeks reimbursement for this admission based upon the stop-loss reimbursement methodology which is not applicable per Division rule at 28 TAC §134.401(c)(6).
 - The requestor does not discuss or explain how additional payment of \$29,318.74 would result in a fair and

reasonable reimbursement

- Documentation of the amount of reimbursement received for these same or similar services was not presented for review.
- The requestor did not submit documentation to support that payment of the amount sought is a fair and reasonable rate of reimbursement for the services in this dispute.
- The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
- The requestor did not support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
